

NOTICE

To: East End Hangar Tenants at Camarillo Airport

From: Camarillo Airport Operations Supervisor

Date: July 12, 2019

Re: **Construction Start Date - Northeast Hangar Development, Phase 1**

The County of Ventura Department of Airports (DOA) is pleased to announce that the construction of the first phase of the Northeast Hangar Development will begin on July 29, 2019 with an estimated completion date of June 2, 2020. Once constructed, the DOA will be able to offer forty-one (41) new County hangars to prospective tenants to help alleviate the demand for aircraft storage at Camarillo Airport.

It is not anticipated project construction will impact normal airport operations. All taxilanes/taxiways in the area, including the contractor access/route (Gate 1 to Taxiway G1 – see attached diagram) are expected to remain operational throughout the duration of the project. Appropriate security and traffic plan measures will be in place.

Project updates, including construction schedule updates, will be available on the DOA's website beginning July 29th at: <https://www.ventura.org/camarillo-projects/>.

Please contact Airport Operations with any questions or concerns at 805-947-6803.

Thank you for your understanding and cooperation.

Sincerely,

Department of Airports
