
Ad-Hoc Lease Update Committee Selected

To: Camarillo and Oxnard Pilots and Hangar Tenants

From: Department of Airports

Date: October 24, 2017

The Ad-Hoc Lease Update Committee has been selected through our facilitator CommuniQuest, and participants' contact information is listed below. Should you wish to provide input on the draft lease, please take the time to contact the member that represents your stakeholder group and relate your comments to them. The member will then present any feedback to the Committee at the meetings. The first meeting of the Committee is scheduled for November 6, 2017. There will be additional opportunities to provide input as we move through this collaborative process to update the leases for the month-to-month storage hangars.
