Flex Networks

The Flex product stratifies and bundles UnitedHealthcare's full network of providers into distinct subnetworks (Flex Network 1, Network 2 and, in some areas, Network 3) based on evaluation of cost and quality metrics. Flex Network 1 is the preferred network of choice, as it maintains quality standards while offering the most cost-effective premiums. Although, Flex Networks 2 and 3 also include recognized quality providers, the higher associated premiums will allow members to make informed spending decisions based on their specific health care needs.
