➤ Schools and NfL's – Key Collaborators

## First 5 NfL's

- Interface staff provide support and technical assistance to trained and accredited NfL staff who implement seminars, tip sheet presentations and brief consultations also known as Level 2 and Level 3.
- Interface staff work together with the NfL staff to identify appropriate referrals for Triple P and to engage the families in culturally informed services provided in the families primary language.
- NfL staff have requested individual services, seminars and tip-sheet talks.

## First 5 NfL's

Interface staff work closely with the following 5 NfL's providing support, technical assistance and intervention services at 13 NfL sites:

| <u>NfL Regions:</u>    | <u># of NfL Sites Served:</u> |
|------------------------|-------------------------------|
| – Rio                  | 1                             |
| – Santa Clara Valley   | 2                             |
| – Moorpark/Simi Valley | 2                             |
| – Conejo               | 6                             |
| – Pleasant Valley      | 2                             |

## Schools

Interface staff developed Memorandums of Understanding with the following School Districts to provide Triple P intervention services in 53 Schools:

| <u>School Districts</u> | <u># of Schools Served</u> |
|-------------------------|----------------------------|
| - Rio                   | 7                          |
| - Santa Paula           | 7                          |
| - Briggs                | 2                          |
| - Fillmore              | 5                          |
| - Piru                  | 1                          |
| - Moorpark              | 10                         |
| - Simi Valley           | 21                         |

➤ What Do Outcomes Tell Us?

## Triple P

- Prevents further entry of families into other systems.
- Decreases symptoms and improves child behavior.
- Increases both the child's and family's functioning.
- Improves family connections and communications.
- Increases child's school performance.
- Increases parents' confidence with parenting skills.
- Builds a stronger attachment between parent and child.

## ➤ What Community Partners and Parents Have to Say About Triple P

## Triple P

- “Triple P gives parents tools. Families give us feedback about how much it helps their family’s functioning, their connection with each other and their ability to talk with one another.”
- “The parents come in very excited about the whole process and tell us what a difference they can see in their child!”
- “I enjoy being a parent! This is the closest my family has been. I feel young again and full of energy like I did in my 20’s.”

## Success Stories

 **Triple P**

**Program Recommendations**

Ventura County HSA data reports a substantial increase in child abuse reports in Camarillo for 2012. Triple P America outcomes indicate a decrease in child abuse reports where Triple P is provided. Therefore, Interface proposes a 20% budget increase to implement School Based Triple P to the Camarillo School District.
