

## Naval Air Warfare Center Weapons Division (NAWCWD)

### **How can a teacher or school contact you to schedule a STEM tour?**

NAWCWD gives monthly STEM tours to students in the local grade school thru University level. The navy also offers various intern opportunities to give students opportunities to pursue technical careers and hopefully a gateway to full employment.

Navy Pathways Intern Program can be found at:

<http://www.secnaw.navy.mil/donhr/How-To-Apply/Students/Pages/Default.aspx>

(for civilians, not military)

For our Naval base tours; you can contact Julia Marshall at (760) 939-5462, [julia.marshall@navy.mil](mailto:julia.marshall@navy.mil) at China Lake or Phillis Thrower for local tours at Point Mugu (805) 989-0857; [phillis.thrower@navy.mil](mailto:phillis.thrower@navy.mil), or Anthony (Tony) Straight; (805) 989-3316

Let your local school district know that you are interested in promoting a career path; they will get you in contact with those involved with setting up tours and career day events.
