Hangar Inspections Update

Many thanks to all of you that have opened your hangars for the inspection. For the most part, everyone is compliant with the FAA aeronautical use, local rules and regulations, and the lease agreements. Where we have identified issues, we are working cooperatively with tenants to correct them. There are less than 100 hangars that still need to be inspected, and we have sent out a certified letter to those tenants. Inspections only take a few minutes. If you have not had your hangar inspected, PLEASE contact us by phone or email to schedule your inspection:

- CMA: Nick Martino 805-388-4246
nicholas.martino@ventura.org
- OXR: Brent Brown 805-382-3024
brent.brown@ventura.org
- Admin: Natalie Carrier 805-388-4273
natalie.carrier@ventura.org

More information on the inspection program can be found at <https://srv-endpoint.ventura.org/department-of-airports/hangar-inspections>

Online Recurrent Drivers Training

Recurrent Airport Driver Training for the Department of Airports is now available online. You simply watch the instructional video and take a short exam. Your passing grade and identification will then be emailed to our Department. It's just that simple! If for some reason you don't pass the exam three times, you will be notified to visit the Department of Airports and receive training

in person with one of our Airport Operations Officers.

The link to the training is:

<https://srv-endpoint.ventura.org/department-of-airports/airport-access-requirements>

ADS-B Update

The FAA is working to raise awareness about equipping your aircraft with ADS-B Out. Starting January 1, 2020, you must be equipped with ADS-B Out to fly in most controlled airspace. Federal Regulations [14 CFR 91.225](#) and [14 CFR 91.227](#) contain the details. Find out how you should equip your aircraft depending on where you fly, what equipment has been FAA certified and other useful information. The FAA announced that they will offer a \$500 rebate on ADS-B installation this fall.

A link to the FAA Resource Website is:
<https://www.faa.gov/nextgen/equipadsb/>

ADS-B
REBATE

To be eligible for a **REBATE**, your **aircraft** must meet these requirements

- Aircraft is U.S. registered
- Fixed-wing single-engine piston driven aircraft
- Aircraft not currently equipped with Version 2 ADS-B Out

<http://www.faa.gov/nextgen/equipadsb/rebate/>

Airports' Capital Improvement Plan Schedule

The Airports' Pavement Management Plans indicate that full reconstruction or major rehabilitation of runways and taxiways are due at both Camarillo and Oxnard Airports over the next Federal Fiscal Years (FFY). The department works closely with the FAA to program these projects based on available federal grant funding. The schedule below shows the proposed current years (subject to change).

Camarillo Airport

- FFY 2017: Development of the Northeast Hangar Development, Phase I
- FFY 2021: Reconstruct/Rehabilitate RWY 8-26

Oxnard Airport

- FFY 2019: Reconstruct TWYs A, B, C, D, E
- FFY 2020: Reconstruct/Rehabilitate RWY 7-25
- FFY 2022: Reconstruct/Rehabilitate TWY F

Non-Grant Funded Projects for the County's Fiscal Upcoming Year include:

- Solar Installations at both Airports
- Hangar electrical upgrades at two (2) County owned hangar rows at CMA

AVIATION CAREER DAY

FOR VENTURA COUNTY HIGH SCHOOL STUDENTS

Friday, October 28, 2016 • 9:00 am to 1:00 pm

Commemorative Air Force (CAF) Hangar, 455 Aviation Drive, Camarillo Airport

For exhibitor opportunities please contact Alison Barker—Ventura County 99s:
vc99soutreach@gmail.com or 805-312-9299

Department of Airports High Flyers

Winter 2015 High Flyer is Byron Hamilton. Byron serves as a Maintenance Worker III. He has been with the Airports for over 11 years. Byron spent seven years as a SeaBee with the US Navy. He has been an extremely stable and knowledgeable staple within the Department and is the lead for all Airports Maintenance Training, especially focused on bringing the plethora of new employees up to speed over these past couple of years. He is married to Lytrese and has two girls and one boy ages 21, 22 and 24. Byron resides in Camarillo where he is very involved in remote control vehicles including the high tech world of Unmanned Aircraft Systems (UAS).

Spring 2016 High Flyer is Ed Toves. Ed was born and raised in the town of Wahiawa, or *Land Between Two Streams*, on the island of Oahu, Hawaii. After moving to the main land to work in the construction field, Ed eventually began a career with the then California Department of Fish and Game as a fish and wildlife technician, working in the fish hatcheries around the State. For the past year and a half, he has been with the Department of Airports serving as a maintenance worker.

<u>Personnel Update</u>	Administration	Operations	Maintenance
<u>Arrivals</u>	Ana Castro	Keenan Cummings	Mark Norris Carlos Enriquez
<u>Departures</u>	Luz Villavicencio		Nathan Roth David Cherrier

Events Calendar

Aviation Advisory Commission Meeting

First Monday of the month @ 7 p.m.

Airport Authorities Meeting

Second Thursday of the month @ 7 p.m.

Airport Director's "Open Door"

Thursdays 2-4 p.m.

Ventura County 99's Pilot Proficiency Classes.

The Maintenance Corner

There is abundant maintenance activity at both Airports! With the recent hangar inspections, our work request load has multiplied 10 times the normal amount. While the increase in work requests is great for job security, it is tough to catch up on existing requests. The Department has experienced staff turnover in the past few months but we have recently recruited highly qualified personnel to join the maintenance ranks. We are working diligently to schedule and complete 100+ work orders generated as a result of being able to proactively look inside most County hangars. If you have outstanding work, we ask that you collaborate with us to schedule any hangar maintenance and please note that most requests require the aircraft to be out of the hangar. This process might take some time so we thank you in advance for your patience and understanding.

Camarillo Airport

- Everyone is reminded to please prevent tailgating through gates. We recently had another vehicle/gate accident that severely damaged Gate VI. The fact is 90% of accidents that occur at the gates are caused by tailgating. Please be respectful of others and don't follow too closely.
- It is once again, tree-trimming time, so please watch for vehicles and trimmers around the roads and business park areas.

Oxnard Airport

- We are looking to refurbish one hangar row (Hangar C-25 through C-36) in the July-September timeframe. This project is going to take a bit of time and more coordination between Airport Operations, Maintenance, and the affected tenants. We will be replacing most of the "skin" of the hangars while also working any structural issues.

Hazardous Waste Disposal Reminder

The used oil barrels at the wash rack are for individual use only. Leaving other items such as un-marked hazmat containers or large barrels resulting from commercial operations is not allowed. This behavior not only causes costly testing and disposal but could will result in hefty fines for those responsible.
