

2009 Volatile Organic Compound Emission Reallocation Process

This was the first year in which the Ventura County Agricultural Commissioner's Office instituted the process to request a supplemental emission allowance from any revoked and returned fumigant allowances.

In 2009 Permittees returned to the Agricultural Commissioner a total of 201,400 lbs. of unused emission allowances. This allowed 25-Permittees to request and receive a reallocation of emission allowances totaling 97,809 lbs.

The Reallocation Process will be continued in 2010, so please remember to return any unused emission allocation to the Agricultural Commissioner's Office as soon as possible so that other Permittees can have the opportunity to receive an allocation to meet their fumigation needs.

Results of the Reallocation Process for the 2009 Volatile Organic Compound Program

	June	July	August	September	October	Totals
Permittees requesting allowance	4	5	8	7	1	25
Emission pounds requested	5061	11492	66217	11289	3750	
Emission pounds received	5061	11492	66217	11289	3750	
Emission pounds used	5061	11492	66217	11289	3750	
Total pounds used	5061	11492	66217	11289	3750	
Total pounds used June - October						97809
