

CERT

Community Emergency Response Teams

Supervisor Steve Bennett's office is registering Ojai Valley residents on an interest list for Community Emergency Response Training (CERT). The 7-week course, sponsored by the Ventura County Fire Department, covers basic skills that are important to know in a disaster when emergency services are not available. CERT participants receive training, practice and learn how to work as a team in their neighborhoods. No prior experience or training is necessary, and there is no fee for the program.

Classes will be held in the multi-purpose room at the Oak View Park and Resource Center, 555 Mahoney, Oak View. We hope to have a CERT training class early on in 2010 so please call and get your name on our interest list so we can notify you of when the classes will be held. Thank you for making the Ojai Valley a safer place to call home.

To register call Supervisor Bennett's office at 654-2703.
