

Oak Park MAC CSA 4 Landscape Committee Report: June 26, 2025
Submitted by: Brian Trushinski, CSA 4 Landscape Committee Chair

- June is the last month that Enhanced Landscapes will be servicing CSA 4. The new landscaping contractor is Mariposa Landscapes Inc., and they will begin on July 1st.
- The first major landscaping project that Mariposa Landscapes Inc. will be working on is in-fill plantings of large bare-patch areas along the north and south sides of Hawthorne Drive between Bowfield Street & Kanan Road. Mariposa will be creating a landscape planting concept and budget which the CSA 4 Landscape Committee will discuss, and County Public Works Agency will authorize in July/ August.
- Overall, CSA 4 landscaping looks particularly good. There were no irrigation breaks during the month of June.
- Five (5) Kanan Road intersections are getting high friction surface areas immediately before the signal lights. The friction surface helps to reduce potential vehicular rear-ending and pedestrian accidents by creating a tire gripping surface that quickly reduces vehicular speed and assists in vehicle braking. There will be twenty-six (26) intersections throughout unincorporated Ventura County receiving this road upgrade. Intersection locations were selected based on historical high collision records. The Oak Park intersections are:
 - Kanan and Golden Eagle.
 - Kanan and Hollytree.
 - Kanan and Deerhill.
 - Kanan and Sunnycrest.
 - Kanan and Conifer.
