

**1999-2000 GRAND JURY FINAL REPORT**  
**ASSESSMENT OF FEES FOR WORK FURLOUGH INMATES**

Respondent: Chief Administrative Officer

Recommendation (R-4):

*That any increase in fees, approved by the Board of Supervisors and assessed to inmates participating in the Work Furlough Program, be part of the annual budget review process and that any increase in fees accurately reflect costs to the county for the participating inmates.*

Response: Concur

The CAO concurs with the Grand Jury's recommendation to incorporate any fee adjustments to the Work Furlough Program in concert with the annual budget review and development cycle. Currently, billing rates and fee schedules are evaluated and presented to the Board of Supervisors in conjunction with the budget process. However, this practice and policy direction does not preclude subsequent adjustments to any billing rate or fee if determined necessary during the fiscal year.
