

## **COUNTY SERVICES AND SPECIAL DISTRICTS**

The County Services and Special Districts Committees are combined since they are responsible for oversight of some of the same agencies.

The committee accomplished its task of civil oversight by visiting agencies, conducting interviews, following up on complaints assigned to the Committee and reviewing documentation representing the following agencies:

- Channel Islands Harbor District
- Six water districts
- Ventura City Water Plant
- Ventura County waste treatment plants
- Human Resources
- Board of Supervisors
- LAFCO
- Elections
- Public Works Agency (Flood Control District)

The Committee's efforts involved the evaluation and investigation of ten citizen complaints and protocol visits to eighteen agencies.
