Director

**ROBERT M. LEVIN, MD**  
Health Officer/Medical Director

Date: April 14, 2014

To: Health Care Partners

From: Rigoberto Vargas, Public Health Director

RE: Attestation Statement

Ventura County Public Health is currently able to receive electronic syndromic surveillance data from local acute care hospitals through EpiCenter. We are unable to accept electronic syndromic surveillance data from other provider types at this time. For more information on how to submit data through EpiCenter, contact our epidemiologist Barbara Spraktes-Wilkins at 805-981-5279 or [Barbara.spraktes-wilkins@ventura.org](mailto:Barbara.spraktes-wilkins@ventura.org).

Ventura County Public Health is now utilizing CalREDIE for mandated reporting. CalREDIE is able to receive electronic laboratory reports which can be transmitted directly to Ventura County Public Health. Eligible providers will need to sign up to begin testing utilizing the following link:  
<http://hie.cdph.ca.gov/>.

The California Immunization Registry (CAIR) is able to receive immunization test data. Upon submission of a test message, you will receive a confirmation notice of a successful test message from CAIR. If the CAIR registry is unable to process your test message for any reason, you will be provided with an exclusion notice. For more information to submit your test data or for other data exchange tech support to <http://hie.cdph.ca.gov/> or contact our local CAIR representative Monica Hernandez at 805-981-5118 or via [monica.hernandez@ventura.org](mailto:monica.hernandez@ventura.org).

If you need more information or have questions, please contact us at (805) 981-5101 or visit us at [www.vchca.org/public-health](http://www.vchca.org/public-health).
