**\*\*\*VCAS is committed to ending the cycle of impulse rabbit purchases and subsequent abandonments that occur each spring; therefore rabbits will not be available for adoption at this event.**

About Ventura County Animal Services

Ventura County Animal Services (VCAS) is a division of the Ventura County Public Health Department; a department of the Ventura County Health Care Agency.

The mission of VCAS is to improve the lives of animals under their care, be timely and compassionate in response to customers, educate through community outreach and public awareness and provide for the health and safety of the citizens and animals of Ventura County.

VCAS rescues, impounds and treats stray, abandoned and sick animals, conducts license sales and rabies clinics, conducts nuisance animal investigations, provides euthanasia and disposal services and assists with animal evacuations during disasters. The agency's Camarillo Shelter houses impounded, stray, abandoned, lost and homeless animals and provides veterinary care, housing and board while the animals await reclaim or adoption.
