TO: THE RESIDENTS OF THE COUNTY OF VENTURA

In accordance with the provisions of Sections 29000 through 29144 of the California Government Code, the County of Ventura presents the Fiscal Year (FY) 2014-15 Adopted Budget, which was adopted by the Board of Supervisors on June 16, 2014 and balanced based on financial information available at that time.

The FY 2014-15 Adopted Budget is the plan of financial operations for departments, agencies and special districts governed by the Board of Supervisors. The budget contains estimated expenditures for the fiscal year and the proposed means of financing those expenditures. The budget document is available at the Auditor-Controller's website noted below. Following is a summary of the budget document.

BUDGET OVERVIEW

Total budgeted appropriations increased to \$1.88 billion, representing an increase of 4.2% over the prior year. The majority of the increase is attributed to the implementation of Public Safety Realignment and the Affordable Care Act (ACA). The FY 2013-14 total actual expenditures of \$1.69 billion were 11.5% lower than the FY 2014-15 budgeted appropriations.

In the General Fund, appropriations of \$947 million increased by \$25.0 million or 2.7% over the prior year adopted budget. The increase in appropriations is primarily due to an increase in salaries and employee benefits, including increased retirement rates, market based adjustments for employee salaries, and increased salaries and benefits due to filling positions previously allocated to support Federal Health Care Reform requirements.

Total budgeted revenues of \$1.77 billion increased \$59.9 million, or 3.5% over the prior year adopted budget. Increased operations at the Ventura County Medical Center, resulting from anticipated changes as part of the ACA, and an increase in General Fund general purpose revenues accounted for the majority of the increase. The increase in General Fund revenue is primarily related to increased property taxes and increased charges for services related to the Health Care Agency's expansion of Mental Health medical services as part of the ACA and Sheriff Patrol services to contract cities. FY 2013-14 total actual revenues of \$1.72 billion were lower than the FY2014-15 budgeted revenues by 2.7%.

The County's budget is based on several significant principles and guidelines, including:

- A structurally balanced budget where ongoing requirements are financed with ongoing revenues.

- Year-end fund balance or carryover for the General Fund is not considered an ongoing available financing source but should be used to maintain policy-set fund balance levels and finance one-time expenditures.
- Budget adjustments will occur as the fiscal year progresses to reflect reasonable and conservative fluctuations in revenue and expenditures.
- Recommendations are in compliance with the Public Safety Ordinance 4088 settlement agreement.
- State or Federal funding reductions for specific programs and services are offset by corresponding cuts in the same department budgets and programs, or offset by alternative revenue or net cost decreases in other department programs.
- Focus on ensuring sufficient resources to meet core County service needs by defining department budget priorities and implementing Performance Measurement to establish and monitor efficiency.
- Reduced overhead and enhanced cost effectiveness in addition to the various initiatives launched by the Service Excellence Program through Lean 6 Sigma projects and alignment to the County's Five Year Strategic Plan.
- Continuous monitoring of the County's financial condition with focus on long term financial viability and integration of the use of multi-year forecast as a guide to maintain structural balance.

BUDGET HIGHLIGHTS

- The adopted budget includes appropriations for any negotiated salary increases and modest estimated salary increases for labor groups still in negotiations.
- The actuarially determined composite employer contribution rate for Retirement Contributions increased from 26.6% to 28.2% of covered payroll as compared to the prior year. However, due to the early implementation of the 50-50 normal cost share, the employer contribution rate is reduced to 26.8%.
- Unfunded and unrecorded Actuarial Accrued Liabilities for the Management Retiree Health Plan and the Subsidized Medical Program are estimated at \$14.2 million and \$15.5 million, respectively, down from \$14.7 million and \$17.1 million in the prior year.
- As a result of mandates arising from the Katie A. Litigation, the County Human Services Agency Child and Family Services and Health Care Agency Behavioral Health are implementing an integrated approach to improve mental health and welfare services to children who are served by the County's foster care or family maintenance programs.
- The Ventura County Medical Center system operational plan projects an operating gain of about \$9.3 million after adjusting for non-operational items such as debt principal and fixed assets. The FY 2014-15 operational plan includes an \$11 million reduction in realignment funding based on the implementation of the Medi-Cal expansion and Insurance Exchange and \$16.3 million of debt payments for the new Hospital Replacement Wing.

- Public Safety Realignment funding to support the fourth year of the comprehensive shift of criminal justice responsibilities to the County is budgeted at \$18.5 million.
- Estimated General Fund Unassigned Fund Balance is \$114 million, an increase of \$5.5 million or 5.1% over the prior year adopted budget.
- General Fund secured property taxes are budgeted at \$179.7 million, an increase of \$9.6 million or 5.6% over the prior year. Countywide, the secured property assessed valuation of \$110.5 billion has increased by \$6.0 billion, or 5.8% compared to the prior year.
- Total increase in full-time equivalent (FTE) positions is 99 or 1.2% over the prior year adopted budget. The key component of the FTE increase is in the area of Health and Human Services.

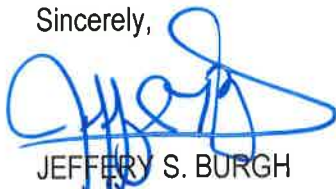

Although the budget is balanced, challenges still exist that could negatively affect the County's current and future financial position. A key area of concern is State or Federal actions requiring expanding service levels in health and human services and public safety.

Governor Brown signed the Budget Act of 2014 on June 20, 2014. The balanced budget, part of a multi-year plan, pays down debt, strengthens the teachers' retirement system, builds a Rainy Day Fund and directs additional funding for local schools and healthcare.

Although exhibiting a recovering economy, the County will continue to monitor the State budget to ensure that corresponding adjustments are made in the County's budget for possible State funding adjustments, program shifts, or other factors that may cause negative impact to County programs.

Let us know if you have any questions, comments, or suggestions concerning the budget or regarding the finances of the County of Ventura. Contact information is noted at the bottom of the preceding page.

Sincerely,

JEFFERY S. BURGH
