Honorable Board of Supervisors
County of Ventura
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: Receive and File the Independent Audit of Basic Financial Statements of the Ventura County Treasury Investment Pool and the Independent Auditors' Communication with Those Charged with Governance

RECOMMENDATION: Receive and file.

FISCAL/MANDATES IMPACT: None.

DISCUSSION:

California Government Code Section ("GC §") 26920(b) prescribes that the Auditor-Controller annually perform or cause to be performed an audit of the assets in the County Treasury. We contracted with an independent certified public accounting firm, Vavrinek, Trine, Day & Company ("VTD"), to audit the Ventura County Treasury Investment Pool as of June 30, 2015. The audit is attached as Exhibit 1.

VTD issued an unmodified opinion, indicating that the financial statements present fairly, in all material respects, the financial position of the \$2.3 billion Ventura County Treasury Investment Pool and the changes in financial position as of and for the year ended June 30, 2015. VTD identified no material weaknesses in internal control over financial reporting and no instances of noncompliance required to be reported under *Government Auditing Standards*.

In addition, auditing standards require that auditors communicate with those charged with governance certain significant matters related to the audit. The term *those charged with governance* refers to those with responsibility for overseeing the strategic direction of the entity and obligations related to the accountability of the entity, including overseeing the entity's financial reporting process. The document attached as Exhibit 2 communicates such matters to the County's Board of Supervisors.

Honorable Board of Supervisors

INDEPENDENT AUDITORS' REPORT

To the County Board of Supervisors
County of Ventura, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Ventura County Investment Pool (Investment Pool), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Investment Pool's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Investment Pool, as of June 30, 2015, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the activities of the Investment Pool and do not purport to, and do not, present fairly the financial position of the County of Ventura as of June 30, 2015, and the changes in its financial position for the year ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 – 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 19, 2016, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Rancho Cucamonga, California

**VENTURA COUNTY TREASURY'S INVESTMENT POOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015 (Unaudited)**

As management of the Ventura County's Investment Pool ("Investment Pool"), we offer readers of the Investment Pool's financial statements this narrative overview and analysis of the financial activities of the Investment Pool for the fiscal year ended June 30, 2015.

The following analysis primarily focuses on the Investment Pool's current year results in comparison with the prior year. We encourage readers to consider the information presented here in conjunction with the accompanying basic financial statements.

Financial Highlights

- The Investment Pool's total net position at June 30, 2015, was \$2.3 billion, an increase of \$426.7 million (22.5%) compared to prior year.
- Contributions by participants increased by \$667.1 million resulting from the addition of new participants such as Gold Coast Health Plan and Ventura County Public Financing Authority and additional contribution from the public school districts due to Proposition 39 bond proceeds and increased school funding from the State.
- The net investment income increased by \$2.2 million or 27.2% from the prior year. The net change in the fair value of investments increased by \$3.0 million primarily due to changes in investment portfolio mix in the current year. Offsetting the increase in the change in fair value is lower interest income and lower gain on the sale of investments compared to prior year.
- The Investment Pool's expense ratio was competitive at 0.06% of the average daily balance for the current year and 0.08% for the prior year.

Overview of the Investment Pool Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The Investment Pool's basic financial statements consist of two components:

- 1) Statement of Net Position and Statement of Changes in Net Position;
- 2) Notes to the Basic Financial Statements

The Statement of Net Position presents information on the Investment Pool's assets and liabilities, with the difference between the two reported as *net position*.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

The Ventura County Investment Pool (“Investment Pool”) is part of the County of Ventura (“County”) and is responsible for assets of approximately \$2.3 billion as of June 30, 2015. The Investment Pool is administered by the Treasurer-Tax Collector, an elected official that manages pooled funds under the prudent investor rule which states that:

“Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.”

The Investment Pool is not registered with the United States Securities and Exchange Commission as an investment company. The Investment Pool is comprised of the County, local school districts, local community colleges and other districts and agencies. Legal provisions require certain special districts to participate in the County’s Investment Pool including public school districts, cemetery districts, recreation and park districts, and the Air Pollution Control District. Involuntary participants in the Investment Pool comprise approximately 38%. The Treasurer-Tax Collector’s authority to invest is delegated by the Board of Supervisors in accordance with California Government Code Section (“GC §”) 53607. The Investment Pool’s investment objectives are to safeguard principal, meet the liquidity needs of the participants, and return an acceptable yield within the parameters of prudent risk management.

Pursuant to GC §27130-27137, the Board of Supervisors has established the Treasury Oversight Committee (“TOC”) which monitors and reviews the Statement of Investment Policy (“Policy”). The TOC consists of Ventura County officials, representatives from various pool participants, and members of the public. The Treasurer also reports on a monthly basis to the Board of Supervisors.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this method, earnings on investments are recognized as revenue in the period in which they are earned and administrative costs are recognized as expenses when incurred, regardless of the timing of related cash flows. Interest earned on pooled investments is allocated quarterly to the appropriate funds based on each fund’s respective average daily balance for that quarter. Investment pool participants’ deposits and withdrawals are based on a full cost basis, while investments are reported at fair value.

New Accounting Pronouncement

In February 2015, the Governmental Accounting Standards Board (“GASB”) issued Statement No. 72, *Fair Value Measurement and Application*. GASB 72 provides guidance for determining a fair value measurement for financial reporting purposes. It also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. GASB 72 is effective for financial statements for periods beginning after June 15, 2015, with earlier application encouraged. The adoption of GASB 72 will require additional disclosure and presentation according to new hierarchy.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncement (Continued)

In December 2015, GASB issued Statement No. 79, *Certain External Investment Pools and Pool Participants*. GASB 79 provides guidance for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. GASB 79 is effective for financial statements for periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015. The County has not determined the effect of this statement.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures at the date of the financial statements and during the reporting period. Actual results could differ from these estimates.

Gains and Losses

Unrealized gains and losses of securities are determined by taking the difference between amortized cost and the fair value of investments. The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that were held in more than one fiscal year and sold in the current year were included as a change in the fair value of investments reported in the prior years and current year.

NOTE 2 - CASH AND INVESTMENTS

Deposits

At June 30, 2015, the carrying amount of the County's deposits was \$258,224,327 and total bank balances amounted to \$272,218,135. The carrying amount of cash and deposits reflects outstanding checks of \$17,934,827. Of the bank balances, \$250,000 was covered by federal depository insurance and \$271,968,135 was uninsured. The total bank balance reflects a need to keep funds available for cash flow purposes. The uninsured deposits were held by a financial institution, which is legally required by the GC to collateralize the County's deposits by pledging government securities or first trust deed mortgage notes. In accordance with GC §53652, the market value of the pledged securities and first trust deed mortgage notes must be at least 110 percent and 150 percent of the County's deposits, respectively, as provided for in the County's Contract for Deposit of Moneys.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. For deposits, this risk is mitigated through federal depository insurance coverage and collateralization in accordance with GC §53652 as explained in detail above.

Investments

The Policy, which is more restrictive than required by GC §53635, stipulates the type, maturity limit, credit rating, and diversification of securities comprising the investment pool. The objectives of the Policy, in order of priority, are: safety of principal, maintenance of liquidity, and earning a competitive rate of return. The Policy, in compliance with GC §53635, authorizes the Treasurer to invest in the following instruments: obligations of the U.S. Treasury, agencies and instrumentalities, or commercial paper rated A-1 or better by Standard and Poor's Ratings Services, P-1 by Moody's Investor Service, or F1 or better by Fitch Ratings, bankers' acceptances, repurchase agreements, corporate notes, negotiable certificates of deposit and Yankee certificates of deposit, supranational instruments, obligations of the State of California, and obligations of any local agency within California.

Treasury Pool investments are accounted for in accordance with the provisions of GASB 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, which requires governmental entities to report certain investments at fair value in the statement of net position and recognize the corresponding change in fair value of investments in the year in which the change occurred. The fair value of pooled investments is determined monthly and is provided by the custodian bank.

The County Treasurer calculates and records all interest earned, received, and accrued for the Treasurer's Investment Pool on a daily basis. Interest earned on the pooled investments is apportioned quarterly based on the average daily balance of each pool participant.

Credit Risk

State law and the Policy limit investments in commercial paper to those with the rating of A-1 or better by Standard & Poor's or P-1 by Moody's Investors Service. State law limits investment in medium term notes to a rating of A or better by Standard & Poor's or A2 by Moody's; the Policy limits the short term ratings to A-1 or higher by Standard and Poor's, P-1 by Moody's, and F1 or higher by Fitch Ratings, in addition, the Policy limits the long-term ratings to A or higher by Standard and Poor's, A2 or higher by Moody's, and A or higher by Fitch Ratings. State law does not limit investments in Municipal notes, bonds, and other obligations; the Policy limits the long-term ratings to A or higher by Standard and Poor's, A2 or higher by Moody's, and A or higher by Fitch Ratings. State law limits investments in supranational instruments to those with the rating of AA or better by Standard & Poor's; the Policy limits the rating to AAA by Standard and Poor's. The County does not have credit limits on government agency securities. Certificates of deposit are required to be insured by the FDIC.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015**

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Custodial Credit Risk - Investment

This is the risk that, in the event of failure by the counterparty to a transaction, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Securities purchased by the Investment Pool are held by a third-party custodian, Wells Fargo Institutional Retirement Business, in their trust department to mitigate custodial risk.

Concentration of Credit Risk

In accordance with GASB 40, *Deposit and Investment Risk Disclosures*, disclosure is required for instruments in any one issuer that represents 5% or more of the Investment Pool holdings and are not explicitly guaranteed by the United States Government. State law and the Policy limit investments in commercial paper to 40% of the investment pool and 10% of the investment pool per issuer. State law limits investments in medium term notes to 30% of the investment pool; the Policy limit is 20% of the investment pool. State law and the Policy limit investments in negotiable certificates of deposit to 30% of the investment pool. State law and the Policy limit investments in supranational instruments to 30% of the investment pool.

Interest Rate Risk

Through its Policy, the County manages its exposure to market value losses arising from increasing interest rates by limiting the weighted average maturity of the Investment Pool's holdings to 375 days. At June 30, 2015, the weighted average maturity of the Investment Pool was 295 days.

California Local Agency Investment Fund

The Investment Pool maintains an investment in the State of California Local Agency Investment Fund (LAIF) that is regulated by the California GC under the oversight of the Treasurer of the State of California. At June 30, 2015, the County's investment in LAIF was \$35,000,000 which approximates fair value and is the same as the value of the pool shares, which is determined on a full cost basis.

CalTRUST and California Asset Management Program

The policy authorizes the Treasurer-Tax Collector to invest in The Investment Trust of California, doing business as CalTRUST, and in California Asset Management Program (CAMP), California joint powers authorities in which the local agencies may invest funds pursuant to GC §53601(p). The combined investment in CalTRUST and CAMP shall not exceed \$25,000,000. At June 30, 2015, the County's investment in CalTRUST was \$15,000,000 which approximates fair value and is the same as the value of the pool shares, which is determined on an amortized cost basis.

**VENTURA COUNTY TREASURY INVESTMENT POOL
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JUNE 30, 2015**

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

A summary of the interest rate percentage range and the maturity range at June 30, 2015, of investments held by the County is as follows:

Investments	Interest Rate Range (Yield Rate)	Interest Rate Range (Coupon Rate)	Maturity Range
LAIF	0.244 – 0.299	0.244 – 0.299	Day-to-Day
Commercial Paper	0.200 – 0.593	0.200 – 0.590	07/01/15 – 03/11/16
U.S. Treasury STRIPS	0.282 – 0.646	0.250 – 0.625	05/15/16 – 02/15/17
U.S. Agency Obligations	0.090 – 0.970	0.090 – 5.250	07/15/15 – 03/06/18
Medium Term Corporate Notes	0.173 – 0.800	0.446 – 6.900	07/01/15 – 01/13/17
Supranational Instruments	0.605 – 1.230	0.610 – 1.230	01/17/17 – 06/15/18
Certificates of Deposit	0.240 – 0.540	0.240 – 0.570	07/02/15 – 12/22/15
Municipal Bonds	0.274 – 1.550	0.274 – 3.950	07/01/15 – 04/01/18
CalTRUST	0.360 – 0.510	0.360 – 0.510	Day-to-Day

Foreign Currency Risk

The Investment Pool does not have any foreign currency risk as all investments in the Investment Pool are in U.S. dollar-denominated assets.

NOTE 3 – INTEREST RECEIVABLE

Interest receivables consist of interest accrued on investments including interest purchased with certain securities. At June 30, 2015, the Investment Pool had \$34,093 of interest receivable.

NOTE 4 – INTEREST APPORTIONMENT

Interest shall be apportioned to all pool participants quarterly, based upon the ratio of the average daily balance of each individual fund to the average daily balance of all funds in the Investment Pool. Using full accrual basis, the amount of interest apportioned shall be determined using the accrual method of accounting, whereby interest will be apportioned for the quarter in which it was actually earned. The Treasurer-Tax Collector may deduct from the gross interest earnings those administrative costs relating to the management of the Treasury, including salaries and other compensation, banking costs, equipment costs, supplies, the cost of information services, cashing, accounting, depositing of public funds, audit, and any other costs as provided by GC §27013, 27133(f), and 27135.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
County of Ventura, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Ventura County Investment Pool (Investment Pool), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Investment Pool's basic financial statements, and have issued our report thereon dated April 19, 2016. Our report included an emphasis of matter that the financial statements do not purport to, and do not present fairly the financial position of the County.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Ventura's (County) internal control over financial reporting (internal control) as it relates to the Investment Pool to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rancho Cucamonga, California

April 19, 2016

To the County Board of Supervisors
County of Ventura, California

We have audited the financial statements of the Treasury Investment Pool (Investment Pool) of the County of Ventura, California (County), for the year ended June 30, 2015. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the County Investment Pool's financial statements was management's estimates used in determining the fair market value of investments. We evaluated the key factors and assumptions used to develop the estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated April 19, 2016.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County Investment Pool’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Restriction on Use

This information is intended solely for the use of Board of Supervisors and management of the County and is not intended to be, and should not be, used by anyone other than these specified parties.
