

# COVID TREATMENT

AT NO COST TO THE PATIENT

## **CASIRIVIMAB AND IMDEVIMAB MONOCLONAL ANTIBODY INJECTIONS**

The use of monoclonal antibody treatments could help reduce your need for hospitalization.

- **Did you test positive for COVID?**
  - Did your symptoms start less than 10 days ago?
- **Please call or email our outpatient clinic to check your eligibility for the treatment**
  - Leave a message with a call back number if it is after hours. We will return your call the following morning.
  - Same day appointments are available.

**(805) 702-8339**
